

FIELDSTONE IS A WELCOMING AND SAFE ENVIRONMENT

Understandably, school health and safety protocol is a central concern for students and families at this time. Fieldstone has taken the utmost care in ensuring that our school is a safe and clean environment for teaching and learning.

Health and Safety Protocol for the 2020-2021 School Year

We will take the utmost care in providing our community with a healthy environment. Our new routines include:

- All staff and students will wear both masks and face shields. Fieldstone provides the first face shield to all students.
- Sanitizing stations have been installed in front of each classroom and additional sanitizing stations have been installed in the cafeteria.
- Microwaves will be monitored by a staff member and regularly wiped down between uses.
- Students will be asked to bring their own hand sanitizer to use before entering each class.
- Desks and chairs will be wiped down before the end of each period.
- All textbooks and resources will stay at the school or digital resources will be used.
- Physical distancing will be enforced throughout the campus (hallways, cafeteria, and classrooms).
- Chairs and desks will be arranged to support physical distancing.
- All shared spaces (washrooms, cafeteria etc.) will have specific regulations (reduced capacities and increased cleaning frequency) in place to minimize student contact and prevent the spread of germs.
- The Fieldstone Library will be closed until further notice.
- The playground structures will be closed until further notice.
- To reduce traffic at our entrances, we are designating grade groups to enter/exit at specific doors, thus dispersing traffic to three different entrances.
